THE DIRECTOR OF  
CENTRAL INTELLIGENCE

National Intelligence Council

27 May 1983

NOTE FOR: Larry Gershwin

*present*  
I mentioned to the Director Volume II of the ABM coming out and Bob Gates mentioned a DDI paper on Soviet high technology lasers. The Director said that he might put a covering memo on these. (In the case of your Volume II presumably some kind of summary would be needed; maybe it doesn't lend itself to DCI circulation.)
